Full job description

Your new company

A NASDAQ-listed Global Tier 1 Consultancy is currently undergoing strong growth and they are looking to hire additional members to support their organic expansion! They have great global presence and work very closely with multiple Local & Global Tier 1 clients who are undergoing AI-led digital transformations.

Your new role

They are looking for multiple Software Developers with 4-12+ years' Java experience in multithreading & testing, and you will be working within the . You will work very closely within a team of developers who share similar values and bounce ideas off each other as you are going to be supported by industry experts within the business.

What you'll need to succeed

- 4-12+ years' application development experience in Java, with knowledge of data structures, multithreading, concurrency, collections, OOAD & design patterns etc.
- Strong experience with Spring, Springboot, JDBC, UAT
- Proven experience with stakeholder management experience whilst working independently

What you'll get in return

- Flexible Work Arrangements
- Friendly Working Environment with Opportunity to work with Tier 1 commercial clients
- Be part of something exciting with great potentials ahead!
