Skills

MANAGEMENT ACCOUNTING

Full job description

Your new company

Well established mining business with a small and very stable team of loyal accountants are looking for an experienced management accountant to join their high performing, friendly team. This is a highly successful and well regarded business with JVs in place with multiple listed miners. They treat their staff well with a terrific salary package and bonus, great offices and WFH arrangements.

Your new role

This management accounting role will focus on budgeting, forecasting and reporting but will see you getting involved in other areas of accounting as this is a small and versatile team. The business uses Pronto and Excel reporting and exposure to both would help but is not critical.

What you'll need to succeed

You will have mining experience. This is critical to this opportunity. If the experience is combined with a formal public practice grounding (Business services or audit) then even better. You will be a dynamic go getter, able to work in a small and nimble team that work on high profile and fast paced projects.

What you'll get in return

A great salary, office environment and WFH as well as the opportunity to work with some well known figures within the mining space. This role is a terrific opportunity.
